

The Lead app (former called the Small Group Leader app) is available for both iOS and Android devices. These instructions were originally written for iOS devices but have been updated for Android devices.

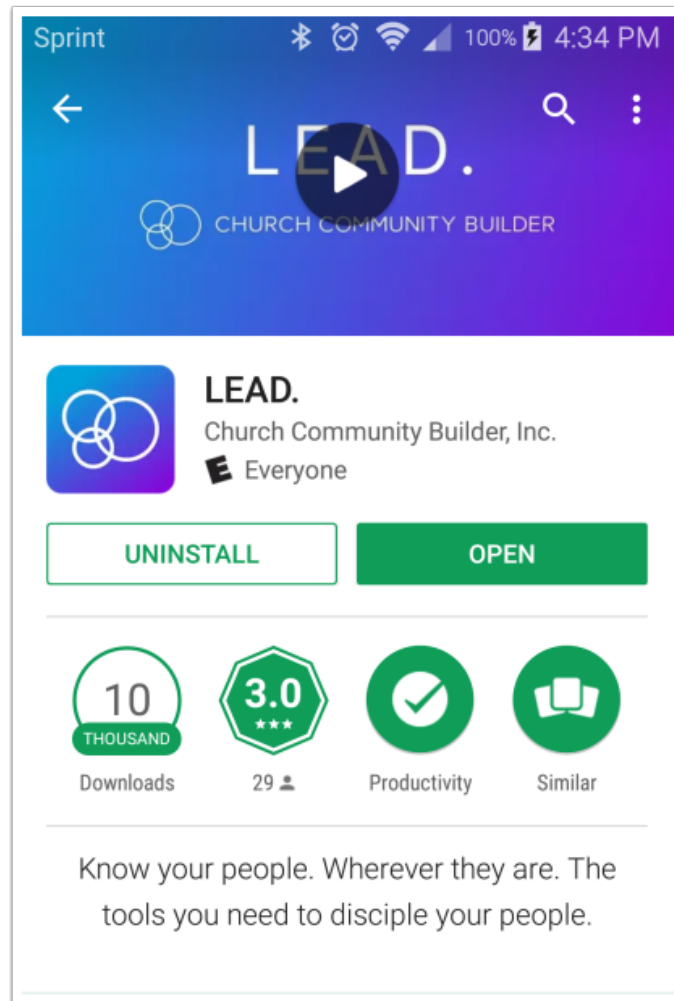

The LEAD App is intended for group leaders and process queue owners to be able to manage their groups, schedules and queues. You must have admin privileges, be a group leader or queue manager to be able to log into the application after installing it.

## **Install application**

Go to your device's App Store or Google Play and search for "church community builder" or "lead".

Note: The Small Group Leader app has been replaced with the LEAD app.

The LEAD application will look something like this:

- Install on your device

## Real Life CCB Church Prefix is "reallifefl"

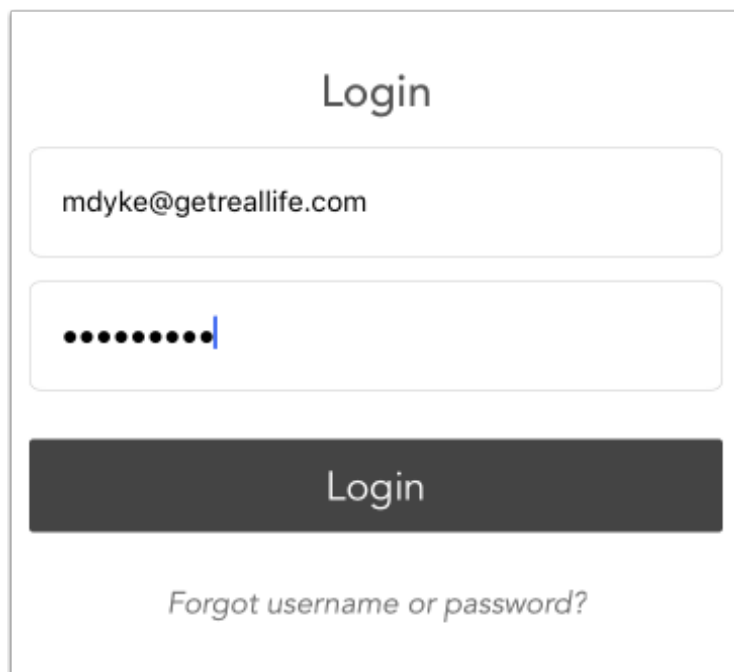

- When you open the LEAD App, it will prompt you for your church prefix.

Enter our CCB Church Prefix **reallifefl**

- Login using your CCB username and password

Click on *Forgot username or password?* if you don't remember or don't have a username or password.

## You're In!

The default screen when you log in is the My Groups screen.
