

From the LEAD App, the group leader or assistant group leaders can send a group text.

The Lead App is available for both iOS and Android devices.

Click here for details on [how to install](#) the LEAD App on your device.

*NOTE: The Real Life Christian CCB Church Prefix is **reallifefl***

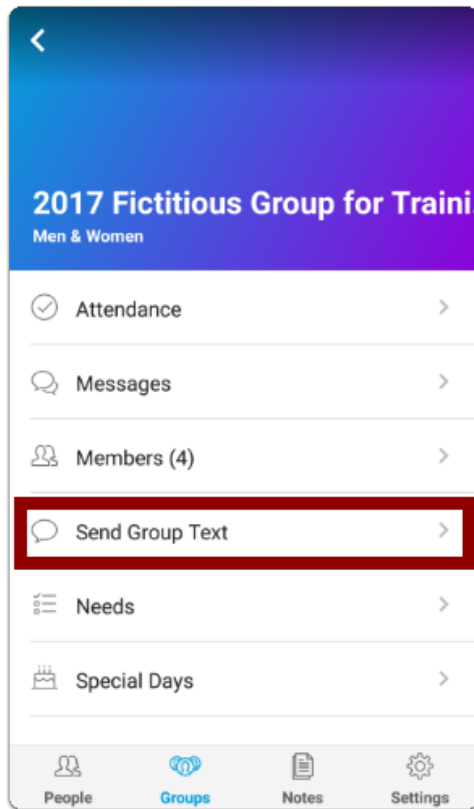

NOTE: Use your regular CCB login credentials to log into the LEAD App.

If you can't log in, you may not be correctly set up as a group leader, queue manager, or have admin privileges. Click here to [Verify group leadership](#) If setup correctly, contact help@getreallife.com

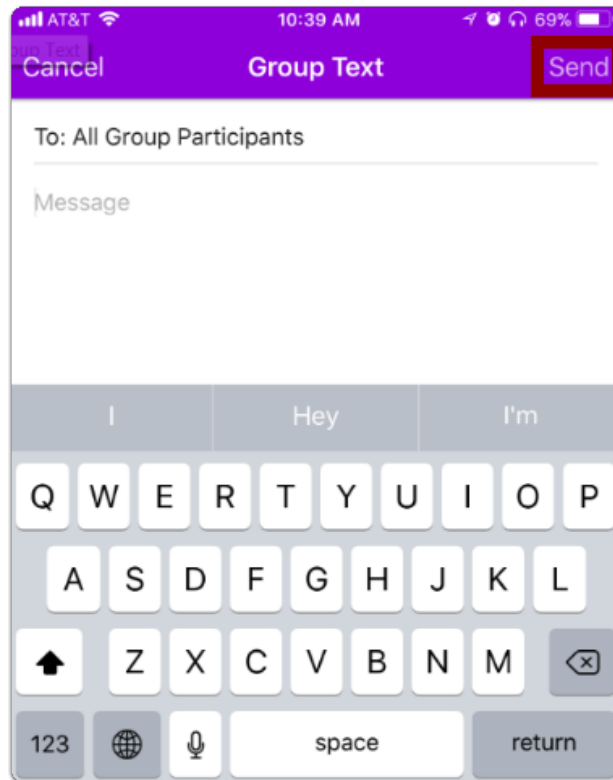

The LEAD App updates CCB – so anything you update is immediately available in CCB!

Send Group Text

Select the specific **group** then select **Send Group Text**

Compose your text message and click **Send**

Note: You are limited to 140 characters for your text message.

Note: Currently images & emoji's are not supported when sending a text through the App.

Receive Group Text

The text message shows as coming from reallifefl@ccbchurch. It will only get sent to the members with a communication preference that allows text messages from group leaders to be sent.

The message will not get stored into CCB under the Messages tab.

The first time someone gets a group text message from the LEAD app, they will get the message with a link to update his/her communication preference settings for receiving group texts from group leaders.

You are now getting texts from Real Life Christian Church. Change your settings at
